

Matt Shade Concept

Perfection made simple

One concept : pinpoint accuracy and reliability.

The R-M brand represents the ultimate in quality and innovation amongst its professional partners in automotive refinishing.

Today, the growing trend for matt finishes is seeing leading car manufacturers offering an increasing variety of satin and matt finishes, from trims and panels to the entire vehicle body.

R-M's innovative response for forward thinking bodyshops is the **Matt Shade Concept**, the perfect repair solution.

The two benchmarks in matt clearcoat

and matt clearcoats guarantee extremely effective, high performance repair to any matt finish.

Used with their respective hardeners and thinners, which are an integral part of the **Matt Shade Concept**, these clears have the power to accurately reproduce the full range of matt and gloss levels, ensuring the perfect matt or satin finish.

No new special technique to learn; simply follow the process to accurately match and formulate the perfect clearcoat to reproduce any matt finish.

An innovate solution, that is simply perfect!
